

WAVEMASTERS NEW 21ft OFFSHORE Men's fitness ski

Wave masters latest release 21ft offshore combines speed with comfort and stability and is made with all wavemasters current technology. The Wavemaster team has been extensively testing the new model over 5-20km distance trials and in offshore and onshore wind conditions. The most important factor to come out of these trials is how you can combine stability with speed.

Do yourself a favour and try our new model before you buy any other brand. The price on our new model is \$2800.00. *Also available in carbon Fibre layup.* The new model is fully adjustable to suit all leg lengths.

SPECS; O/length 6.4m= 21 ft Beam 480mm Depth at deepest point 370mm. Approximate weight 14-18kg depending on layup.
